

ENHANCING YOUR CAREER IN SPACE

AMOS

SPACE GENERATION  
ADVISORY COUNCIL

# ALL - VIRTUAL Sept 12-15, 2020 4 day Intensive

--- PLUS ---

2 Pre-Webinars begin Aug 26  
& 4 Post-Webinars in October

The annual EMER-GEN® Program, introduced in 2018, is designed especially for young professionals and students enthusiastic about careers in space.

SKILL BUILDING

NETWORKING

MENTORING

Originally a 2+ day program, EMER-GEN has grown to include webinars, before and after the main event, with a focus on fostering innovation and entrepreneurship among the cohort. Through the program, participants will be challenged to solve/hack a problem to create new opportunities for space-based technologies.

The EMER-GEN experience features:

- \* **Mentoring** with renowned space specialists from the public sector (military and civil), private sector, and nongovernmental organizations
- \* **Skill building** sessions to enhance your effectiveness in a global environment, including communication, leadership and critical thinking skills
- \* **Technical short course** presented by a specialist in space situational awareness
- \* **Networking** with other young professionals

**\$95**

“We learned a lot about leadership and cultural awareness as well as technical issues that will help us go forward in our careers. It was an enriching experience.” Victoria Carter-Cortez, SGAC

“This is my second year as an EMER-GEN™ participant. The conference offers a big picture in a dynamic and inspiring space-industry environment.” Diana Agdeppa, The Boeing Company

“Multiple teams, multiple agendas, multilateral diplomatic relations, all funneled into a SSA presentation to see which teams succeeded in properly managing their space program -- This was an unimaginably fun bootcamp for critical thinking.” Dylan Schwarzmeier, Pacific Defense Solutions, A Centauri Company
