ENHANCING YOUR CAREER IN SPACE

A JOINT INITIATIVE OF THE
AMOS CONFERENCE AND SGAC

Sponsor the 2018 EMER-GEN at the AMOS Conference September 9-11 | Wailea Marriott

The first annual EMER-GEN is a joint initiative of the AMOS Conference and SGAC. The program is designed especially for young professionals and students (35 and under) enthusiastic about careers in space. Your support will provide the funds necessary to ensure the longevity of the program. In addition, corporate sponsorship monies help off set program costs to encourage young professionals to participate, regardless of their financial situation. Participants will receive mentoring with renowned space specialists from public sector (military and civil), private sector, and nongovernmental organizations; networking opportunities with other young professionals; participate in technical short courses led by experts drawn from an array of fields related to space situational awareness; and receive professional development through sessions to enhance their effectiveness in a global environment.
